DEPARTMENT OF EDUCATION

CITY OF NEW YORK

OFFICE OF THE BOARD OF EDUCATION, }
146 GRAND STREET, }
BOROUGH OF MANHATTAN. }

NEW YORK, *July* 31, 1898.

HON. ROBERT A. VAN WYCK,

Mayor of The City of New York.

SIR:

Section 1,085 of The Greater New York Charter provides as follows:

“The Board of Education shall, between the first day of August and the thirtieth day of November in each year, make and transmit to the Mayor of The City of New York a report in writing, bearing date on the thirty-first day of July next preceding, stating the whole number of schools within their jurisdiction, especially designating the schools for colored children; the schools or societies from which reports shall have been made to the Board of Education, within the time limited for that purpose; the length of time such school shall have been kept open; the amount of public money apportioned or appropriated to said school or society, the number taught in each school, the whole amount of money drawn from the City Chamberlain for the purposes of public education during the year ending at the date of their report, distinguishing the amount received from the general fund of the State and from all other sources; the manner in which such moneys shall have been expended,” etc.

In accordance with the provisions of this section, the Board of Education has the honor to transmit the following report, showing the operations of the Department of Education for the school year ending on this date.

In this connection it should be observed that the Department of Education of The City of New York did not come into existence until February 1, 1898; that the several School Boards did not organize until the 9th of February, and the Board of Education not until the 21st of February. In the Boroughs of Manhattan and The Bronx, and in the Borough of Brooklyn, the School Boards are the former Boards of Education continued, and, consequently, there was no break in the continuity of administration. In the Boroughs of Queens and of Richmond, however, the School Boards took the place of a large number of boards of trustees, etc., having jurisdiction in the numerous school districts existing in these Boroughs prior to consolidation. In these Boroughs, therefore, it has not been found practicable to present statistics for the entire school year 1897-98.

By Section 1,101 of the Charter the School Boards are required to make annual reports to the Board of Education "of such matters as the Board of Education may, by its by-laws or regulations, require."

In conformity with this section, the Board of Education on October 26, 1898, adopted an amendment to its by-laws providing as follows:

"Each School Board shall, on or before the thirty-first day of July in each year, make and transmit to the Board of Education an annual report stating the whole number of schools within its jurisdiction during the school year then ending, specially designating the schools for colored children; the number of teachers; the number of pupils registered in each school and the average attendance; the number of high schools and of training

schools for teachers, with the number of teachers, the total register and average attendance at each, and the number graduated therefrom; the number of evening schools, with the register of pupils and average attendance, specially designating the evening high schools; the schools registered with the Regents of the University of the State of New York; the number of centres at which free lectures for workingmen and workingwomen were given, the number of such lectures, and the total attendance at the same; the corporate schools from which reports have been made to the Board of Education through the School Board, the number of teachers and the attendance at each such school, and the amount of money distributed to each; the amount of the General School Fund apportioned for use within the jurisdiction of the School Board, and the manner in which it was expended; and such recommendations, especially in respect to new school buildings and sites, as the School Board may see fit to make."

Full compliance with this provision is, of course, impossible for the last school year; and on this account, and for the reasons above set forth, the Annual Report of the Board of Education for the year ending July 31, 1898, is somewhat imperfect.

FINANCIAL STATEMENT.

RECEIPTS.

Total from all sources,	\$16,028,801.54

SCHOOL BUILDINGS, ETC.

The following shows the school buildings, annexes, etc., under contract, etc., in the several Boroughs:

BOROUGH OF MANHATTAN AND THE BRONX.

SCHEDULE SHOWING ALL NEW BUILDINGS AND ANNEXES UNDER CONSTRUCTION, AND THE DATES ON WHICH SUCH BUILDINGS AND ANNEXES WILL BE COMPLETED.

1. Public School 157, west side of St. Nicholas avenue, between One hundred and twenty-sixth and One hundred and twenty-seventh streets.—Forty-five classrooms, gymnasium and manual training rooms.

Delay has ensued from various causes.

2. Public School 137, Grand and Essex streets.—Contract provides for remodeling the present building, so as to increase the number of classrooms from ten to thirty.

To be completed August 15, 1898.

3. Public School 42, north side of Hester street, between Orchard and Ludlow streets.—Forty-two classrooms, gymnasium, manual training rooms and roof playground.

To be completed October 1, 1898.

4. Public School 158, east side of Avenue A, between Seventy-seventh and Seventy-eighth streets.—Forty-eight classrooms, kindergarten, gymnasium and manual training rooms.

Will be ready for opening December 1, 1898.

5. Public School 153, Andrews and Burnside avenues.—Fourteen classrooms and gymnasium.

Will be ready for opening December 1, 1898.

6. Public School 160, southwest corner of Rivington and Suffolk streets.—Thirty-nine classrooms, kindergarten, manual training, gymnasium and roof playground.

Will be ready for opening January 1, 1899.

7. Public School 165, south side of One hundred and ninth street, running through to One hundred and eighth street, between Amsterdam avenue and the Boulevard.—Forty-five classrooms, manual training rooms and gymnasium.

Some delay experienced on account of iron work; also on account of financial condition of the city.

8. Public School 166, Eighty-ninth street, between Columbus and Amsterdam avenues.—Thirty-nine classrooms, gymnasium, manual training rooms, etc.*

9. Public School 159, East One hundred and nineteenth and One hundred and twentieth streets, between Second and Third avenues.—Forty-eight classrooms, gymnasium, manual training rooms, etc.*

10. Public School 164, south side of One hundred and Forty-first street, between Brook and St. Ann's avenues, one hundred feet east of Brook avenue.—Twenty-one classrooms.*

11. Public School 40, south side of Twentieth street, between First and Second avenues.—Twenty-nine classrooms, gymnasium, manual training rooms and roof playground.*

Contractor could not get possession of property to begin work on account of opening of street.

12. Public School 167, Mott and Walton avenues, One hundred and forty-fourth and One hundred and forty-

* Delayed on account of the financial condition of the City.

sixth streets.—Thirty classrooms, physical and manual training rooms.*

To be completed January, 1899.

13. Public School 173, south side of One hundred and eighty-third street, between Cambreleng and Beaumont avenues.—Thirty classrooms, physical and manual training rooms.*

Contract time for completion, January, 1899.

14. Public School 169, west side of Audubon avenue, between One hundred and sixty-eighth and One hundred and sixty-ninth streets.—Thirty classrooms, physical and manual training rooms.*

The following contracts have been awarded, and are now awaiting approval of the Board of Estimate and Apportionment:

15. New Public School 44, southeast corner of Hubert and Collister streets.—Twenty-nine classrooms, physical and manual training rooms and roof playground.

16. Public School 168, One hundred and fourth and One hundred and fifth streets, between First and Second avenues.—Forty-eight classrooms, physical and manual training rooms.

17. Public School 98, addition, Park avenue and Second street, Williamsbridge.—Eight classrooms.

BUILDINGS, ANNEXES, ETC., FOR WHICH PROPOSALS HAVE BEEN
SOLICITED AND CONTRACTS FOR WHICH ARE NOW
BEFORE THE BOARD FOR APPROVAL.

None.

* Delayed on account of the financial condition of the City.

BUILDINGS, ANNEXES, ETC., FOR WHICH PLANS ARE BEING
PREPARED.

18. Public School 50, addition, East Twentieth street.
—Five classrooms and one kindergarten.

Plans and specifications completed, but laid aside,
owing to proposed acquisition of property in the rear.

19. Public School 120, addition, No. 189 Broome
street.—Two classrooms and one kindergarten.

Plans and specifications completed.

20. Public School 177, southeast corner of Market and
Monroe streets.—Thirty-six classrooms, including two
kindergarten rooms, physical and manual training rooms
and roof playground.

Plans and specifications completed.

21. Public School 171, One hundred and third and
One hundred and fourth streets, between Fifth and
Madison avenues.—Forty-eight classrooms, including
two kindergartens and physical and manual training
rooms.

Plans and specifications completed.

22. Public School 172, One hundred and eighth and
One hundred and ninth streets, between First and Sec-
ond avenues.—Twenty-four classrooms, physical and
manual training rooms.

23. Boys' High School, west side of Tenth avenue,
between Fifty-eighth and Fifty-ninth streets.

Plans and specifications ready for advertisement.

24. Girls' High School, One hundred and fourteenth
and One hundred and fifteenth streets, one hundred feet
west of Seventh avenue.

25. Mixed High School, One hundred and sixty-sixth
street, between Boston Road and Jackson avenue.

26. Public School 174, Attorney street, between Rivington and Stanton streets.—Twenty-four classrooms, kindergarten, gymnasium and roof playground.

27. Public School 46, addition, One hundred and fifty-sixth street, near St. Nicholas avenue.—Fifteen classrooms, physical and manual training rooms.

28. Public School 109, Ninety-ninth and One hundredth streets, between Second and Third avenues.—Forty-eight classrooms (three kindergartens), physical and manual training rooms.

29. Public School 175, Jerome and Walton avenues, between One hundred and eighty-fourth street and Fordham Landing Road.—Twenty-four classrooms, two kindergartens and six manual training rooms.

30. Public School 119, One hundred and thirty-third and One hundred and thirty-fourth streets, between Seventh and Eighth avenues.—Forty-eight classrooms (three kindergartens), manual and physical training rooms.

31. Public School 69, addition, No. 123 West Fifty-fourth street.—Two kindergarten classrooms.

32. Public School 170, One hundred and eleventh and One hundred and twelfth streets, between Fifth and Lenox avenues.—Forty-eight classrooms, physical and manual training rooms.

Plans and specifications ready for advertisement.

BOROUGH OF BROOKLYN.

SCHEDULE SHOWING ALL NEW BUILDINGS AND ANNEXES UNDER
CONSTRUCTION, AND THE DATES ON WHICH SUCH
BUILDINGS AND ANNEXES WILL BE
COMPLETED.

1. Public School 116, Knickerbocker avenue, between
Ralph and Grove streets.—Twenty-seven classrooms,
kindergarten and assembly room.*

Will be completed January, 1899.

2. Public School 118, Fourth avenue and Fifty-ninth
street.—Twenty-eight classrooms, kindergarten and as-
sembly room.*

Will be completed about January, 1899.

3. Erasmus Hall High School, addition, Flatbush ave-
nue, near East Broadway.—Sixteen classrooms, study
room, drawing room, lecture room and laboratory.

To be completed early in February, 1899.

BUILDINGS, ANNEXES, ETC., FOR WHICH PROPOSALS HAVE BEEN
SOLICITED AND CONTRACTS FOR WHICH ARE NOW
BEFORE THE BOARD FOR APPROVAL.

None.

BUILDINGS, ANNEXES, ETC., FOR WHICH PLANS ARE BEING PRE-
PARED.

None.

* Delayed on account of the financial condition of the City.

BOROUGH OF QUEENS.

SCHEDULE GIVING A LIST OF BUILDINGS IN COURSE OF CONSTRUCTION FOR PUBLIC SCHOOL PURPOSES, WHICH WERE CONTRACTED FOR BEFORE CONSOLIDATION BY THE FORMER BOARDS OF EDUCATION IN THE COUNTY OF QUEENS.

1. Public School 11, two additions, Woodside.
Will be completed March 1, 1899.
2. Public School 22, Flushing.
Will be completed December 15, 1898.
3. Public School 14, Newtown.
Will be completed January 1, 1899.
4. Public School 23, Flushing.
Will be completed December 15, 1898.
5. Public School 26, Black Stump Road, Flushing.
Abandoned by the contractors. Deputy Superintendent of School Buildings unable to obtain any information in regard to the matter except from hearsay, and can form no idea when building will be completed.
6. Public School 33, Creedmoor.
Will be ready for occupancy January 1, 1899.
7. Public School 34, Queens.
Will be ready for occupancy January 1, 1899.
8. Public School 44, Rockaway Beach.
Will be completed January 30, 1899.
9. Public School 45, Jamaica South.
Will be completed December 15, 1898.
10. Public School 27, College Point.
Will be completed March 1, 1899.
11. Public School 42, Rockaway Beach.
Will be completed January 30, 1899.

12. Public School 43, Rockaway Beach.
Will be completed January 30, 1899.
13. Public School 52, Richmond Hill.
Will be completed May 1, 1899.
14. Public School 65, Woodhaven.
Will be completed January 1, 1899.
15. Public School 64, Woodhaven.
Will be completed March 1, 1899.
16. Public School 66, Woodhaven.
Will be completed March 1, 1899.
17. Public School 75, Metropolitan.
Will be completed January 1, 1899.

BUILDINGS, ANNEXES, ETC., FOR WHICH PROPOSALS HAVE BEEN
SOLICITED AND CONTRACTS FOR WHICH ARE NOW
BEFORE THE BOARD FOR APPROVAL.

None.

BUILDINGS FOR WHICH PLANS ARE BEING PREPARED.

18. Public School 11, annex, northeast corner Charlotte avenue and Seventh street, Woodside.
19. Public School 30, annex, Whitestone, interior fittings, etc., to divide building into classrooms.
20. Public School 2, annex, Long Island City.
21. Public School 5, annex, Long Island City.
22. Public School 48, addition, Jamaica.

BOROUGH OF RICHMOND.

LIST OF BUILDINGS IN COURSE OF CONSTRUCTION.

1. Public School 17, New Brighton.—Twenty-four classrooms.

2. Public School 29, Castleton Corners.

Very little work was done on this contract before consolidation, and nothing has been done since. Effort has been made to have the contract set aside, as the building is absolutely not needed at this point.

The importance of speedily finishing the construction of school buildings under way, the completion of which has been interrupted by the bond limit complications, cannot be over-estimated. The delays already chargeable to that cause will find school-houses that should have been ready for occupancy at the beginning of the next school year still far from completion, the consequence of which will be that accommodations that otherwise would have been available for children who will require them, will not be ready. It is therefore urged that the Board of Estimate and Apportionment take such steps as are possible under the law to provide the necessary funds for the completion, heating and furnishing of these buildings.

It is also respectfully recommended that steps be taken to make available funds that are necessary before the erection of school buildings can be begun on sites now in possession of the Board of Education.

SITES FOR SCHOOL BUILDINGS, ETC.

The following schedule shows the sites for school buildings owned by the City in the Boroughs of Manhattan and The Bronx, but not yet built upon, with the number of classrooms in each of the proposed buildings :

	Number of Classrooms.
1. Plot at southeast corner of Hubert and Collister streets, for new Public School 44, . . .	33
2. Plot on One hundred and eleventh and One hundred and twelfth streets, between Fifth and Lenox avenues, for new Public School 170, . .	48
3. Plot on One hundred and fourth and One hundred and fifth streets, between First and Second avenues, for new Public School 168, . .	48
4. Plot at southeast corner of Market and Monroe streets, for new Public School 136, . . .	36
5. Plot on west side of Attorney street, between Rivington and Stanton streets, for new Public School 174,	24
6. Plot on Sixty-fifth and Sixty-sixth streets, between Boulevard and Amsterdam avenue, . .	36
7. Plot on Ninety-ninth and One hundredth streets, between Second and Third avenues, for new Public School 109,	48
8. Plot on One hundred and third and One hundred and fourth streets, between Fifth and Madison avenues, for new Public School 171, . .	48
9. Plot on One hundred and eighth and One hundred and ninth streets, between First and Second avenues, for new Public School 172, . .	24

	Number of Classrooms.
10. Lots Nos. 216 to 234 (inclusive) East One hundred and twenty-sixth street, in rear of Public School 39, for new building,	45
11. Plot on One hundred and thirty-third and One hundred and thirty-fourth streets, between Seventh and Eighth avenues, for new Public School 119,	48
12. Plot on north side of One hundred and sixty-third street, between Morris and Grant avenues,	45
13. Plot on Jerome and Walton avenues, between One hundred and eighty-fourth street and Fordham Landing Road,	39
14. Plot on Amethyst avenue (proposed) and Victor street (proposed), north of Morris Park avenue, Van Nest Park,	16
15. Plot on east side of Avenue C, between Eighth and Ninth streets, Unionport,	24
16. Plot on east side of Wadsworth avenue, One hundred and eighty-second and One hundred and eighty-third streets, for new Public School 132,	36
17. Plot on One hundred and first and One hundred and second streets, between Columbus and Amsterdam avenues,	48
18. Plot on Sixty-sixth and Sixty-seventh streets, between First avenue and Avenue A, . . .	48
Total,	694

In addition to the 694 classrooms, which, at the rate of fifty to a class, will accommodate 34,700 pupils, there will be space sufficient to provide ninety-four rooms to be used for kindergartens, gymnasiums, clay modeling, cooking and workshop.

SITES FOR ADDITIONS TO SCHOOL BUILDINGS LOCATED IN
THE BOROUGH OF MANHATTAN AND THE BRONX NOT
YET BUILT UPON.

1. Plot on south side of One hundred and fifty-sixth street, on west side of Public School 46.
2. Plot on west side of Ogden avenue, on south side of Public School 91.
3. Lots Nos. 206 to 212 (inclusive) East Seventy-sixth street, in rear of Public School 70.

If buildings were erected on the sites hereinbefore enumerated, about a dozen leased buildings could be abandoned, thus reducing the annual appropriation for rent by about \$40,000.

SITES IN BROOKLYN IN POSSESSION OF THE CITY.

In the Borough of Brooklyn, sites as set forth below are in the possession of the City, and school buildings can be erected thereupon as soon as the necessary funds are available and plans, etc., have been prepared :

1. Butler street, north side, 98'4" east of Fourth avenue ; size 140'x144'x143'8".
2. Eighteenth avenue, south side, 188'8" westerly from Ocean Parkway ; size 205'x110'5"x110'11".
3. Fourth avenue and Thirteenth street, southeast corner ; size 100'x100'.
4. Manhattan avenue, east side, between Conselyea street and Metropolitan avenue ; size 186'x154'x200'.

SITES IN MANHATTAN AND THE BRONX ACQUIRED IN 1898.

The following sites, located in the Boroughs of Manhattan and The Bronx, have been acquired during the year 1898:

1. Plot (216'x205') on the east side of Avenue C, between Eighth and Ninth streets, Unionport.
2. Plot of sixteen lots on Jerome and Walton avenues, between One hundred and eighty-fourth street and Fordham Landing Road, beginning 390.12 feet north of One hundred and eighty-fourth street.
3. Plot of twelve lots on Sixty-sixth and Sixty-seventh streets, beginning 163 feet east of First avenue.*
4. Plot of twelve lots on One hundred and first and One hundred and second streets, between Columbus and Amsterdam avenues, beginning 200 feet east of Amsterdam avenue.*
5. Plot of ten lots on Sixty-fifth and Sixty-sixth streets, between the Boulevard and Amsterdam avenue.
6. Public School 5. Lots Nos. 316, 318, and 320 West One hundred and forty-first street, on east side.*
7. Public School 37. Premises known as Nos. 121 and 123 East Eighty-seventh street, on east side.*
8. Public School 70. Lots Nos. 206 to 212 (inclusive) East Seventy-sixth street, in rear.*
9. Public School 71. Lot No. 607 East Sixth street and twenty feet off rear of the lots Nos. 603, 605 and 609 East Sixth street, in rear.

*Title vested in the City in accordance with Chapter 630 of the Laws of 1897.

10. Plot of eight lots on the east side of Wadsworth avenue, One hundred and eighty-second and One hundred and eighty-third streets, adjoining the site of Public School 132.

HIGH SCHOOL SITES.

1. Twenty-one lots, Nos. 331 to 351 East Fifteenth street and Nos. 326 to 344 East Sixteenth street, between First avenue and Livingston Place.*

2. Plot of sixteen lots on the west side of Tenth avenue, between Fifty-eighth and Fifty-ninth streets.*

3. Plot of eighteen lots on One hundred and fourteenth and One hundred and fifteenth streets, between Seventh and Eighth avenues, beginning one hundred feet west of Seventh avenue.*

4. Plot on the north side of One hundred and sixty-sixth street, the east side of Boston Road and the west side of Jackson avenue.*

The following shows the condition of the proceedings relating to sites approved by the Board which are still pending and not completed :

BOROUGHES OF MANHATTAN AND THE BRONX.

First—The following sites (10) for new buildings, approved by the Board of Education (as constituted prior to February 1, 1898), to be acquired by condemnation proceedings in accordance with Chapter 191 of the Laws of 1888, as amended by Chapter 35 of the Laws of 1890, and Chapters 387 and 890 of the Laws of 1896, are in the hands of the Corporation Counsel :

1. Plot consisting of Nos. 6, 8 and 10 Dominick street,

*Title vested in the City in accordance with Chapter 630 of the Laws of 1897.

Nos. 3 to 13 (inclusive) Clark street, and Nos. 540 to 548 (inclusive) Broome street, for new Public School 38 (152' 10"x168' 9"x104' 2"x84' 6"x49' 6"x84').

2. Block bounded by Manhattan, East Houston, Lewis and East Third streets (211' 8"x195' $\frac{1}{2}$ "x213' $6\frac{1}{4}$ "x167' $3\frac{1}{2}$ ").

3. Plot of twelve lots on One hundred and forty-fifth and One hundred and forty-sixth streets, beginning 325 feet east of the Boulevard (150'x199' 10").

4. Plot of eleven lots on One hundred and twenty-eighth street, Madison avenue, and One hundred and twenty-seventh street (210'x99' 11" and 25'x99' 11").

5. Plot of twelve lots on Ninty-fifth and Ninety-sixth streets, between First and Second avenues, beginning 175 feet west of First avenue (150'x201' 5").

6. Plot consisting of Nos. 305 to 321 (inclusive) East Eighty-second street, between First and Second avenues (150'x102' 2").

7. Plot of sixteen lots on Gerard and Walton avenues, beginning 189' $7\frac{3}{8}$ " north of One hundred and sixty-seventh street (new line) (200'x247' $1\frac{1}{4}$ 'x201' $5\frac{1}{4}$ "x223' $\frac{3}{8}$ ").

8. Plot on north side of Dongan street, between Interval avenue and Kelly street (200'x200').

9. Plot on southeast corner of Elliott avenue and Julianna street, Olinville, on north side of the plot owned by the City (100'x125').

10. Plot on north side of Two hundred and fifty-third street, between Von Humboldt and Faraday avenues, Riverdale (210' $10\frac{7}{8}$ "x200').

Second—The following sites (4) for new buildings, approved by the Board of Education (as constituted

prior to February 1, 1898), to be acquired by condemnation proceedings in accordance with Chapter 191 of the Laws of 1888, as amended by Chapter 35 of the Laws of 1890, Chapters 387 and 890 of the Laws of 1896, and Chapter 630 of the Laws of 1897, are in the hands of the Corporation Counsel:

1. Plot on One hundred and sixteenth and One hundred and seventeenth streets, between Fifth and Lenox avenues, beginning 450 feet east of Lenox avenue (150'x201'10'').

2. Plot of twelve lots on One hundred and forty-seventh and One hundred and forty-eighth streets, between Seventh and Eighth avenues, beginning 350 feet west of Seventh avenue (150'x199'10'').

3. Plot of twelve lots on One hundred and thirty-eighth and One hundred and thirty-ninth streets, between Lenox and Seventh avenues, beginning 150 feet east of Seventh avenue (150'x199'10'').

4. Plot at southwest corner of One hundred and seventy-sixth street (proposed) and Prospect avenue (150'x191').

Third—The following sites (26) for additions to buildings, sanitary improvements, light, ventilation, playgrounds, etc., approved by the Board of Education (as constituted prior to February 1, 1898), to be acquired by condemnation proceedings in accordance with Chapter 191 of the Laws of 1888, as amended by Chapter 35 of the Laws of 1890, and Chapters 387 and 890 of the Laws of 1896, are in the hands of the Corporation Counsel:

1. Lots Nos. 204, 206 and 208 Monroe street, and Nos. 57, 59 and 61 Gouverneur street, on east side of Public School 31 (64'11½"x122'7¾"x67'7¾"x122'9¼").

2. Lot No. 72 Monroe street, on east side of Public School 136 ($20'2'' \times 92'8'' \times 20'2'' \times 92'1/4''$).

3. Lot No. 27 King street, on east side of Public School 8 ($25' \times 100'$).

4. Lots Nos. 34, 36 and 38 Essex street, and lot No. 29 Norfolk street, adjoining Public School 75 ($75' \times 100'$ and $24'10'' \times 100'$).

5. Lot No. 90 Delancey street, on west side of Public School 161 ($27'6'' \times 75'$).

6. Lots Nos. 112, 114 and 116 Sheriff street, on north side of Public School 22 ($74'11'' \times 100'$).

7. Lots No. 327 to 337 (inclusive) East Fourth street, and lot No. 722 East Fifth street, adjoining Public School 15 ($121'6'' \times 96'1/2''$ and $22'6'' \times 96'1/2''$).

8. Plot on Kingsbridge Road, Academy street and Vermilyea avenue, adjoining site of Public School 52, which, taken with present site, gives a plot with a frontage of $150'1/8''$ on Kingsbridge Road, $303'43/4''$ on Academy street and $150'$ on Vermilyea avenue, the southerly line of the plot being $305'21/2''$ in length.

9. Strip of land on south side of site of Public School 10, at southwest corner of One hundred and seventeenth street and St. Nicholas ave. ($29'4'' \times 256'81/2'' \times 25' \times 272'1/2''$).

10. Lots Nos. 169 and 173 East One hundred and fourteenth street, in rear of Public School 57 (lot on each side of lot acquired in 1896) ($19' \times 100'11''$ and $22'4'' \times 100'11''$).

11. Lot ($25' \times 75'$) on Lenox avenue, on north side of Public School 89, and lot ($25' \times 99'11''$) on south side of One hundred and thirty-fifth street, distant 75 feet west of Lenox avenue.

12. Two vacant lots on south side of One hundred and third street, distant 105 feet west of Second avenue, in rear of Public School 121 (50'x100'11").

13. Lots Nos. 60 to 66 (inclusive) Broome street, on south side of Public School 110 (99'11"x75').

14. Lots Nos. 236 and 238 West Twenty-fifth street and 20 inches off rear of Nos. 230, 232, 234, 240, 242 and 244 West Twenty-fifth street, in rear of Public School 45 (30'x98'9" and 20'x90').

15. Lot No. 154 First avenue, on north side of Public School 122 (23'1"x100').

16. Strip of land, 25 feet wide, off rear of Nos. 412, 414 and 416 East Seventeenth street, in rear of Public School 104 (25'x75').

17. Lots Nos. 212 and 214 East Twenty-first street, in rear of Public School 50 (40'x92').

18. Lot No. 214 East Eightieth street and Lot No. 208 East Eightieth street, on east and west sides of annex to Public School 53 (25'x102'2" each).

19. Lot No. 214 East Sixty-third street, on west side of Public School 74 (25'x100'5").

20. Lot No. 337 East Seventieth street, on west side of Public School 82 (25'x100'5").

21. Lot No. 207 East Forty-sixth street, on west side of Public School 73 (20'11 1/2"x100'5").

22. Lots Nos. 124, 126 and 128 East Fifty-second street, in rear of Public School 18 (60'x100'5").

23. Lots Nos. 232 to 240 (inclusive), East Thirty-eighth street, and No. 233 East Thirty-seventh street, adjoining Public School 49.

24. All that portion of the block bounded by Ogden avenue, One hundred and sixty-ninth street and Merriam avenue, not already acquired for school purposes (two irregularly shaped parcels).

25. Plot at southwest corner of One hundred and forty-fifth street and College avenue (125'x125').

26. Strip of land, 50 feet wide, running from Eleventh to Twelfth street, on the east side of the site of Public School 138, at Williamsbridge.

Fourth—The following sites (19) for additions to buildings, sanitary improvements, light, ventilation, playgrounds, etc., approved by the Board of Education (as constituted prior to February 1, 1898), to be acquired by condemnation proceedings in accordance with Chapter 191 of the Laws of 1888, as amended by Chapter 35 of the Laws of 1890, Chapters 387 and 890 of the Laws of 1896, and Chapter 630 of the Laws of 1897, are in the hands of the Corporation Counsel :

1. Lot No. 92 James street, in the rear of Public School 114 (25'2½"x99'7"x24'7½"x98'10½").

2. Lots Nos. 76, 78 and 80 Mulberry street, on north side of Public School 23 (74'7"x100'4").

3. Two vacant lots on north side of Ninety-first street, on west side of Public School 151, at northwest corner of Ninety-first street and First avenue (50'x100'8").

4. Three vacant lots at southwest corner of One hundred and thirty-fifth street and Lenox avenue, for Public School 89 (74'11"x75').

5. Strip 20 feet wide off the rear of the lots Nos. 132 and 134 Ninth avenue, on west side of Public School 56 (20'x44'8¼").

6. Rear tenement on lot No. 44 East First street, on east side of Public School 79, and land covered by it.

7. Strip of land 25 feet wide in rear of Public School 27 (about 25'x83'4").

8. Two vacant lots on south side of Eighty-sixth street, beginning 62' 2 2/3" east of Madison avenue, on north side of Public School 6 (51' 1 1/3"x102' 2").

9. Lots Nos. 226 and 236 East Fifty-seventh street, adjoining site of Public School 59 (25'x100' 5" each).

10. Lot No. 937 First avenue, on north side of Public School 135.

11. Lots Nos. 208 to 218 (inclusive) East Thirty-third street, in rear of Public School 116 (100'x98' 9").

12. Lots Nos. 437 and 439 West Forty-ninth street, in rear of Public School 84 (50'x100' 5").

13. Lots Nos. 132 and 134 West Fifty-fifth street, on west side of annex to Public School 69 (50'x100' 5").

14. Lot No. 456 West Fifty-eighth street, on east side of Public School 141, and 25 feet off the rear of Nos. 457 to 467 (inclusive) West Fifty-seventh street, in rear (25'x100' 6" and 25'x110').

15. Plot on College avenue (west side), One hundred and forty-fourth and One hundred and forty-fifth streets, adjoining plot No. 25 in the foregoing list (150'x75' and 25'x125').

16. Plot (75'x130') on Eagle avenue, on the south side of Public School 90.

17. Plot at southwest corner of Second street and White Plains avenue, on east side of site of Public School 98, at Williamsbridge (135'x209' 8 1/4"x72'x200').

18. Strip of land 50 feet wide on west side of present site of Public School 66, at Kingsbridge (50'x200').

19. Strip of land 50 feet wide running from Webster to Park avenue, on south side of present site of Public School 64.

Fifth—The Board of Education and the Board of Estimate and Apportionment have approved of the purchase of the strip of land (50'x178.45') on the east side of Andrews avenue (proposed), on the north side of the present site of Public School 153, and the matter is in the Corporation Counsel's hands to search title.

The Commissioners of Estimate, in quite a number of the proceedings hereinbefore enumerated, made application for extensions of time in which to make their report to the Court, for the reason that they were informed that the Comptroller was making an investigation into the financial condition of the City, and that, until the result of said investigation was ascertained, it would be impossible to determine whether or not the proceedings could be carried on to completion and title taken by the City; the Corporation Counsel requested that the Commissioners defer making their report or proceeding further in the matter until such time as the Comptroller shall have completed his investigation and made his report thereon; and the applications have been granted by the Court.

The subjoined reports from the several School Boards set forth the operations of the Department of Education during the last school year so far as is practicable at the present time.

Respectfully submitted,

CHAS. BULKLEY HUBBELL,
President.

A. EMERSON PALMER,
Secretary.

THE NAUTICAL SCHOOL.

ANNUAL REPORT OF THE SUPERINTENDENT.

NAUTICAL SCHOOLSHIP "ST. MARY'S,"
NEW YORK, *January* 18, 1899.

Hon. JOHN G. AGAR,

Chairman Executive Committee on Nautical School.

SIR: I have the honor to submit the following report of the operations of the Nautical School from January 1, 1898, to April 22, 1898, and from November 1 to December 31, 1898:

January 6, 1898, Lieutenant John McDonald, U. S. N., was detached from duty on the Schoolship by order of the Navy Department.

January 13, 1898, Lieutenant George R. Evans, U. S. N., was ordered to duty as Senior Instructor.

February 1, 1898, Ensign George B. Bradshaw, U. S. N., was detached from duty on the Schoolship by order of the Navy Department.

April 5, 1898, Lieutenant George R. Evans, U. S. N., was detached and ordered to active service.

April 13, 1898, Lieutenant C. M. Knepper, U. S. N., Executive Officer, was detached and ordered to active service.

April 22, 1898, Lieutenant-Commander W. H. Reeder, Superintendent, was detached and ordered to active service.

On that day the ship, by order of the Chairman of the

Executive Committee, with all her appurtenances, stores, etc., was turned over to Lieutenant E. S. Jacob, U. S. N., retired.

November 1, 1898, Commander W. H. Reeder, U. S. N., was ordered by the Navy Department as commanding officer of the Schoolship, and was the same day appointed Superintendent of the Nautical School.

November 1, 1898, Lieutenant C. M. Knepper, U. S. N., reported for duty as Executive Officer of the Schoolship.

November 3, 1898, Lieutenant H. A. Wiley, U. S. N., reported for duty as Instructor.

The regular course in English branches and special instruction in navigation, compass, sailmaking, knotting and splicing were carried on until the close of the winter term, March 31. The Junior Instructor having been detached February 1, only two line officers were left to carry on the regular instruction, in addition to their other duties, as the Superintendent was detailed for duty on the Auxiliary Cruiser Board, in addition to his duties on the Schoolship.

During the summer, the Schoolship was in charge of Lieutenant Howard Patterson, N. Y. Naval Militia, who was appointed Acting Superintendent. His report is on the files of the Board.*

The winter term commenced November 1, and the regular instruction has been carried on since that date. Special attention has been paid to mathematics, and so far the result has been very gratifying, especially in the upper sections. Applicants for admission seem to be more deficient in that branch than in any other. The large number of withdrawals is due to the fact that a

*Printed below, pages 34-45.

number of the boys seek admission for the purpose of making the summer cruise and then leaving. To obviate this, it has been decided to have all applicants for admission sign an agreement that they will serve the full term unless discharged. All graduates can be provided with positions on steamers and ships sailing out of this port, and their advancement is assured, if they merit it by their attention to duty, etc. The school is in a flourishing condition, and has a larger attendance at this time of the year than for several years past. The character and conduct of the boys are such as to merit great praise, and, with a few exceptions, they are exerting every effort to take advantage of the generous provision made by The City of New York for their education and training.

The majority of the people living in New York do not understand the great advantage offered to their sons in this school. The idea still obtains in some quarters that it is a reformatory; but I am glad to say this is disappearing. There is no school to-day in the City of Greater New York, public or private, where the discipline, morale, etc., are higher than in the Nautical School. This must necessarily be so, for the boys are at all times, day and night, under the supervision of officers of the Navy, with the exception of Saturday night and Sunday, when those whose parents reside in the city are permitted to go to their homes.

The number on board during the year was as follows:

On the roll January 1, 1898,	43
Admitted during the year,	100
Post-graduates,	2

Graduated,	17
Withdrew,	46
Dismissed,	2
Remaining on board December 31,	80

145

I am, very respectfully,

W. H. REEDER,
Commander U. S. Navy,
Superintendent.

REPORT OF LIEUTENANT PATTERSON.

NEW YORK NAUTICAL SCHOOLSHIP "ST. MARY'S,"

NEW YORK CITY, *October 15, 1898.*

Hon. JOHN G. AGAR,

Chairman Executive Committee on Nautical School,
Board of Education, New York City.

DEAR SIR: I respectfully submit the following report of the summer's cruise and the work of the Nautical Schoolship *St. Mary's*:

Upon assuming command of the ship, on May 10 last, I found that the Executive Officer and the two watch officers had been detached by the Secretary of the Navy and ordered on war duty. As the two junior officers not only acted as instructors in the English branches and in professional work, but performed their duties as deck officers as well, the appointment in their places of Messrs. James D. Laird and Isidor L. Ach (two teachers from the New York City public schools) by the Board of Education provided for only a small part of the many and varied services required of the former officers.

Realizing the impossibility of securing regular line officers owing to the war, I made shift to carry on the prescribed work of the ship and the education of the four sections of cadets by taking personal charge of the first or graduating class, and I placed the two civilian teachers and the ship's surgeon, Dr. Robert Smart, in charge of the other three sections respectively.

Being without a single companion line officer to act as executive, I was obliged to do all this officer's work in addition to my other duties; to establish discipline and routine; to personally superintend the preparation for sea; to break in the seventy new cadets; to direct all drills; to teach the science of navigation to my section, and to arrange and supervise the instruction given to the other sections.

The ship left her dock in New York City on the morning of June 8, and proceeded to Oyster Bay, L. I., where she remained until the first part of July, being put in suitable condition for an ocean cruise, and where the cadets were made familiar with their duties aloft and on deck.

During this interval I succeeded in obtaining the services of Mr. Henry Campling as Executive Officer on the ship, and his appointment as such was confirmed by the Board of Education. Mr. Campling reported for duty on July 1, and two days later was taken sick, and to a great extent was incapacitated for duty. In fact, he was more or less prostrated during all the month that he remained on board.

Leaving Oyster Bay, the ship cruised the Sound to the eastward, the cadets being drilled in handling sail and working ship, and then went into New London, Conn. In this port we were detained for two weeks beyond the time set for our departure, owing to continuous and heavy fog. In fact, the amount of fog experienced during the months of July and August is unprece-

dented, according to statistics of this part of the Atlantic coast.

After leaving New London, the cadets were given a taste of off-shore cruising by day and night, and two days later the ship made Newport, R. I., where quite a stay was made owing to fog. Here, on August 5, Mr. Campling resigned owing to his physical condition, and from that date, up to the termination of the cruise, the brunt of all deck duties again devolved on me; but I relieved them to some extent by appointing the boatswain, Mr. Dreilick, as acting executive officer.

It had been my intention to make a cruise to Bermuda, but in the absence of at least one regular line officer to divide the watches with me at sea, I gave up the idea of going foreign and decided to keep to the coast.

During our stay in Newport much profit was derived by the cadets from their experience in visiting the U. S. Naval Training Station, where several hundred apprentices are quartered; also the torpedo station. At the latter place permission was obtained for them to visit the many workshops, and they were instructed in the mechanisms and operations of various types of engines, and the graduating section of the *St. Mary's* were especially favored by an invitation which was accepted to go for an afternoon's trip on the *Stiletto*, and were shown the way in which these destroyers are handled.

While in the above port, Rear Admiral Luce, Commodore Kautz, Commanders Stockton and McGowan, Lieutenant Commander McLean and Lieutenant Little, of the training ship *Constellation*, several times visited the *St. Mary's* to witness our system of instruction.

After leaving Newport, the *St. Mary's* cruised to the westward through Long Island Sound, and the cadets were practised in working the ship at night as well as day, and in the observance of the rules of the road under all conditions.

The next and last port made was Glen Cove, L. I., where study and drills, boat exercise under oars and sail, drill aloft, marlinspike work, navigation, etc., etc., were prosecuted ceaselessly, as they had been in all other ports. It is to be explained that from the day that I took command, up to the return of the ship from her cruise, the studies of the sections in spelling, reading, history, arithmetic, geography, composition and punctuation were incessantly maintained, in addition to all the professional work.

Following is shown the curriculum of studies which I established upon taking command, and which has been indulged in during the present year :

CURRICULUM NEW YORK NAUTICAL SCHOOLSHIP "ST. MARY'S."

For All Sections.

Arithmetic—English — History — Geography—Spelling—Reading—Writing—Composition — Punctuation—The Mariner's Compass and Theory of Magnetism—Swimming—Marlinspike Seamanship—Spars—Standing Rigging — Running Rigging—Sails—Sail Handling—Boats under Oars—Boats under Sail—Hand and Deep Sea Leads—Sail-making—Steering—Rules of the Road — Handling Ship—Navy and International Code Signaling—Great Gun Drill—Single Stick Drill—Setting-up Exercise — Infantry Foot Movements — Rudimentary Navigation.

Extra for First Section.

Charts—Chart Sailing in all its Considerations—Dead Reckoning—Middle-Latitude Sailing—Mercator's Sailing—Great Circle Sailing—Composite Sailing—Latitude by the Sun, Moon, Planets and Stars—Sumner's Method—Compass Adjusting—Care of Nautical Instruments—

Law of Storms—Weatherology—Stowage of Cargo—Ship's Business and Marine Law—Duties of all Merchant-Ship Officers—Theoretical Handling of Steamships—Elements of Astronomy—Elements of Naval Architecture.

Upon the arrival of the ship at Glen Cove, I arranged the following list of 130 test questions in the theory of navigation, and the accompanying 19 different examples, comprehending everything practical in the navigator's art:

EXAMINATION QUESTIONS AND PROBLEMS.

Part 1.—The Compass.

- Q. 1. What do you understand by the mariner's compass?
- Q. 2. Does the needle of the mariner's compass point to the geographical pole?
- Q. 3. What do you understand by the magnetic poles of the earth?
- Q. 4. Where are the magnetic poles of the earth situated?
- Q. 5. How many points to the compass?
- Q. 6. How many degrees to the compass?
- Q. 7. How many degrees to a point of the compass?
- Q. 8. Box the compass in quarter points.
- Q. 9. Name the four quadrants of the compass.
- Q. 10. What do you understand by variation of the compass?
- Q. 11. What do you understand by the line of no variation?
- Q. 12. What do you understand by the magnetic equator?
- Q. 13. What do you understand by deviation of the compass?
- Q. 14. What do you understand by local attraction?
- Q. 15. Is the variation of the compass constant?
- Q. 16. For what purpose are artificial magnets employed in relation to compasses?
- Q. 17. What is a compensated compass?
- Q. 18. Is the adjustment of compasses permanent?
- Q. 19. What do you understand by residual error?
- Q. 20. What is a deviation card?

Q. 21. How could you verify a deviation card?

Q. 22. What is a standard compass?

Q. 23. In taking a bearing would you correct the bearing for the deviation belonging to that particular point or for the ship's head at the time the bearing was taken?

Q. 24. What is the principle of the dry-card compass?

Q. 25. What is the principle of the liquid compass?

Q. 26. What is an amplitude?

Q. 27. What is an azimuth?

Q. 28. What is an azimuth compass?

Q. 29. What is an azimuth attachment?

Q. 30. What is a pelorus?

Q. 31. What is an alidade?

Q. 32. What do you understand by the term "swinging ship"?

Part 2.—Charts.

Q. 33. What is latitude and where does it begin and where end?

Q. 34. What is longitude, how is it counted, and what do you understand by prime meridian?

Q. 35. Explain the principle of Mercator's chart.

Q. 36. What common prime meridian is used by England and the United States?

Q. 37. Why is it that the United States employs any other than its own prime meridian, that of the National Observatory at Washington?

Q. 38. Do the parallels and meridians projected on charts represent the four cardinal points of the magnetic compass or of the heavens?

Q. 39. Are the compass diagrams found printed on charts true or magnetic?

Q. 40. How would you know whether the compass diagrams found on charts were true or magnetic?

Q. 41. How could you tell whether a chart represented north or south latitudes?

Q. 42. How could you tell whether a chart represented east or west longitudes?

Q. 43. What is difference of latitude?

Q. 44. What is difference of longitude?

Q. 45. What is departure?

Q. 46. How many nautical miles to a degree of latitude near the poles?

Q. 47. How many nautical miles to a degree of longitude near the poles?

Q. 48. How many nautical miles to a degree of longitude at the equator?

Q. 49. How many nautical miles to a degree of longitude on the parallel of 45° ?

Q. 50. How do you account for the difference in the value of a degree of longitude, one measured at the equator, the other at 45° ?

Q. 51. Is a minute of latitude always equal to a mile of latitude?

Q. 52. Is a minute of longitude always equal to a mile of departure?

Q. 53. How many feet in a nautical mile?

Q. 54. In measuring distances on an ocean chart, what scale are the dividers set to, and why, and how on an inland chart?

Q. 55. How would you shape a course on an ocean chart and measure the distance between two places, and how on an inland chart?

Q. 56. How would you ascertain the ship's position by cross-bearings?

Q. 57. How would you ascertain the ship's position by one bearing and the distance table?

Q. 58. How would you locate the ship's position on the chart by "Patterson's Method" of two bearings of the same object?

Q. 59. How would you locate the ship by the four point problem?

Q. 60. What do you understand by a vertical angle, and under what circumstances is it employed?

Q. 61. What do you understand by a horizontal danger angle, and under what circumstances is it made use of?

Part 3.—Miscellaneous.

Q. 62. Explain the log-book.

Q. 63. Make diagrams of a log-book page both for sail and steam vessels.

Q. 64. How is the hand lead marked?

Q. 65. How is the deep-sea lead marked?

Q. 66. Explain the use of the patent or taffrail log.

Q. 67. Explain the theory and use of the chip or old-fashioned log.

- Q. 68. For what purposes is the sextant employed ?
- Q. 69. How would you adjust a sextant and find the index error ?
- Q. 70. How would you proceed to take altitudes of the sun at meridian and for time sights ?
- Q. 71. How would you proceed to take altitudes of the moon and stars ?
- Q. 72. Explain the marine chronometer, the meridian which its time records, also its daily rate and method of applying the same.
- Q. 73. What data contained in the Nautical Almanac are made use of in calculating the ship's position by the sun, moon and stars ?
- Q. 74. Explain "Sumner's Method."
- Q. 75. What do you understand by meridian passage ?
- Q. 76. What do you understand by an observed altitude ?
- Q. 77. What is semidiameter ?
- Q. 78. What is dip of the horizon ?
- Q. 79. What is parallax ?
- Q. 80. What is refraction ?
- Q. 81. What is meant by true central altitude ?
- Q. 82. What is zenith distance ?
- Q. 83. What is the ecliptic ?
- Q. 84. What is declination ?
- Q. 85. What is polar distance ?
- Q. 86. What is right ascension ?
- Q. 87. What is the meaning of transit ?
- Q. 88. What is meant by upper transit ?
- Q. 89. What is meant by lower transit ?
- Q. 90. What is radius ?
- Q. 91. What is apparent time ?
- Q. 92. What is mean time ?
- Q. 93. What is equation of time ?
- Q. 94. What is astronomical time ?
- Q. 95. What is an A. M. altitude ?
- Q. 96. What is a P. M. altitude ?
- Q. 97. What is meant by above the pole ?
- Q. 98. What is meant by below the pole ?
- Q. 99. What do you understand by prime vertical ?

Q. 100. What do you understand by taking departure or farewell?

Q. 101. What is right ascension of the meridian?

Q. 102. Explain current sailing.

Q. 103. Explain method of determining the amount of leeway.

Q. 104. Explain the manner of ascertaining the true drift when the vessel is hove-to.

Q. 105. What is a traverse table?

Q. 106. Why do you gain time in sailing east and lose time in sailing west?

Q. 107. In measuring altitudes of the sun, would you make a contact with the upper or lower limb, and why?

Q. 108. In measuring the moon's altitude, under what circumstances would you be obliged to make a contact with the upper limb?

Q. 109. What is the difference between a quadrant, an octant, and a sextant?

Q. 110. Name the various parts of a sextant.

Q. 111. How could you calculate the correct local apparent time?

Q. 112. What do you understand by sunrise and sunset time sights for longitude?

Q. 113. How do you obtain the approximate correction of 21' for the lower limb of the sun when working a sunrise or sunset sight?

Q. 114. How do you obtain the approximate correction of 53' for the upper limb of the sun when working a sunrise or sunset sight?

Q. 115. Explain the best method of observing sunrise and sunset time sights for longitude.

Q. 116. What do you understand by parallel sailing?

Q. 117. What do you understand by meridian sailing?

Q. 118. What is meant by day's work?

Q. 119. By what rule do you convert time into degrees of longitude?

Q. 120. By what rule do you convert degrees of longitude into time?

Q. 121. What do you understand by ex-meridian or circum-meridian altitudes?

Q. 122. What are meridional parts?

Q. 123. When is middle-latitude sailing to be preferred to Mercator's sailing?

Q. 124. When is Mercator's sailing to be preferred to middle-latitude sailing?

- Q. 125. What do you understand by great-circle sailing ?
Q. 126. What do you understand by composite tracks ?
Q. 127. Explain the law of storms.
Q. 128. What do you understand by weatherology ?
Q. 129. Explain the mercurial and aneroid barometer.
Q. 130. How do you ascertain the time of high water ?

Part 4.—Examination Problems.

1. Chart work, in all its considerations.
2. Dead reckoning in quarter points.
3. Dead reckoning in degrees.
4. Middle-latitude sailing.
5. Mercator's sailing.
6. Latitude by the sun at meridian.
7. Latitude by the moon at meridian.
8. Latitude by a planet at meridian.
9. Latitude by a star at meridian.
10. Latitude by ex-meridian of the sun.
11. Latitude by Polaris.
12. Longitude by a chronometer altitude sight.
13. Longitude by equal altitudes of the sun.
14. Longitude of the sun at rising and setting.
15. Longitude by the moon.
16. Longitude by a planet.
17. Longitude by a star.
18. Deviation of the compass by amplitude.
19. Deviation of the compass by azimuths.

The graduating exercises took place on Tuesday evening, October 11, and were according to the appended programme :

ORDER OF EXERCISES.

INTRODUCTION—John G. Agar, Chairman Executive Committee, Nautical School.

ADDRESS—Hon. Charles Bulkley Hubbell, President Board of Education.

ADDRESS—Commodore J. W. Philip, United States Navy.

ADDRESS—Lieut. Commander Aaron Vanderbilt, Naval Militia, N. Y.

ADDRESS—E. Ellery Anderson, Member Board of Education.

VALEDICTORY—Harry McChord Hall, Graduating Class Schoolship *St. Mary's*.

PRESENTATION OF DIPLOMAS—Hon. Charles Bulkley Hubbell, President Board of Education.

ADDRESS—Rear Admiral H. C. Erben, United States Navy.

CHARGE TO THE GRADUATES—Lieutenant Howard Patterson, Superintendent.

GRADUATES OF THE "ST. MARY'S" CLASS OF '98.

Harry McChord Hall, Edmund Roxby, Henry Russell Patterson, Lewis Benjamin Reeves, Albert Campbell, Charles Bremer Konselman, Harold de Bussy Justison, Ralph Ward Gilbert, Harry Cecil Ballard, Frederic William Horn, Hal. T. Meriwether, Edwin James Lewis, Marcus Morton Howard, Walter Wallace Riehl, Fred Centro Loring, Arthur N. Haslip, Park Valentine Brymer.

Following are shown the names of the cadets who graduated October 11, and the percentages obtained in the examination set forth:

Name of Cadet.	Average Percentage.
Harry McChord Hall, . . .	95
Henry Russell Patterson, . . .	94
Edmund Roxby, . . .	94
Lewis Benjamin Reeves, . . .	93.5
Albert Campbell, . . .	93.5

Harold de Bussy Justison, . . .	91.5
Harry Cecil Ballard, . . .	91.5
Ralph Ward Gilbert, . . .	91.5
Charles B. Konselman, . . .	91.5
Hal. T. Meriwether, . . .	89.5
Frederic William Horn, . . .	89.5
Edwin Lewis, . . .	88.5
Walter Wallace Riehl, . . .	87.5
Marcus Morton Howard, . . .	87.5
Fred Centro Loring, . . .	82.5
Arthur Norman Haslip, . . .	81.5
Park Valentine Brymer, . . .	75.5

In addition to the written examination in navigation, an oral one on general seamanship, rules of the road, etc., was held by me in order to mark under these headings on the Schoolship diploma the respective ratings according to the prescribed rule.

In closing I may add that my idea in introducing naval drills in the curriculum is that the graduates of the *St. Mary's* may not only be prepared for duty as efficient officers of merchant ships, but that in a time of emergency, like unto our late war with Spain, the naval authorities may find in them a body of bright young American sailors conversant with naval routine and deserving of commissions as junior line officers.

The report of the surgeon of the ship I enclose under separate cover.

I have the honor to be,

Respectfully,

HOWARD PATTERSON,
Lieutenant, Naval Militia, N. Y.,
Commanding.

REPORT OF SURGEON SMART.

NAUTICAL SCHOOLSHIP "ST. MARY'S,"

NEW YORK, *October 1, 1898.*

CAPTAIN HOWARD PATTERSON,

Commanding U. S. S. "St. Mary's."

SIR: I have the honor to submit the following report relative to the sanitary condition of the ship and of the health of the cadets and crew during the summer cruise just ended.

The ship is at present in almost as good sanitary condition as it is possible to keep her. Having been built years ago, she lacks many appliances now found in the more modern vessels for the health and convenience of their crews.

The cadets sleep in hammocks on the gun deck, which in summer, with the ports open, gives a pleasant berth, the galley fires being always extinguished at sufficient time before "taps" to cool off the forward part of the deck. The crew and ship's company use the berth deck for their quarters; this deck is below the water level and is only ventilated by means of wind sails led through the hatches and by the open dead-light ports while at anchor.

During the winter both decks, as well as the school-rooms on the spar deck, are steam heated by a small donkey boiler forward on the berth deck.

The facilities for washing are excellent; in summer the boys prefer the sea bathing when in ports where the water will permit, and in winter wash-houses are built on the spar deck forward of those used for school purposes; these are heated by steam, and there is at all times an abundance of hot water for bathing.

The only place aboard which in winter is not heated is the "head." This place, situated far forward on the

spar deck, has a covering, but it is far from sufficient to exclude the rain or snow of the inclement winter months, and it is here that many of the severe bronchial affections aboard during the winter have their origin. The "head" has been at all times kept scrupulously clean; the sinks being in the hot summer months frequently flushed and afterwards dusted with chloride of lime or other disinfectant three times daily.

I should respectfully recommend, however, that the canvas conductor from the sinks to the water be replaced in some way by metal, as from constant use it becomes permeated, so that at times during the hot weather, even though the sinks be quite clean, there is a perceptible odor from it.

The ship's water tanks were cleaned and filled with New York City water before leaving there. Water from the New London supply was purchased at that port, and again at Newport the empty tanks were re-filled. On each occasion the tanks were well cleaned before taking any fresh water. The ship carries an ample water supply, having 37 tanks, all well cemented, containing an average of 575 gallons each. This allows over six gallons daily for all aboard for thirty days without renewing the supply. In no case has any sickness aboard been attributed to the water.

One of the greatest drawbacks aboard is the want of a proper place for the isolation of any sickness rendering the precaution necessary. This was plainly manifested last April when three cases of diphtheria developed owing to the fact, that though the first case was isolated (in the best manner at command, *i. e.*, forward on the berth deck by a canvas screen) as soon as it was suspected, it was impossible to keep other inquisitive cadets from him. The present dispensary is entirely too small to use for any such purpose.

In closing this sanitary portion of my report I need only add that I have at all weekly inspections, and indeed at all other times, found the ship to be kept, as far as it is possible to keep her, in perfect sanitary condition.

During the cruise there has been an average of 105 persons aboard, and of this number an average of 1.2 persons have daily figured on the sick list and 2.4 on the excused list of the ship.

Of those sick, the average duration of their illness has been 3.5 days, while the average length of "excused duty" for those excused for injury was 4.8 days.

The ailments treated, as a rule, have been such as were induced by some indiscretion of the cadet himself; being chiefly bronchitis, pleurisy (one of the two cases of this disease developing before the cadet came aboard, in New London), and later while at Glen Cove a small epidemic of diarrhoea and colic, due to the cadets' over-indulgence in green fruit while ashore on liberty. The ship, I am glad to say, has been exceptionally free from venereal disease; this is probably due to the prompt dismissal of the only case that presented itself for treatment. Fearing lest other cases might have developed, and the cadets expecting expulsion should they appear at the sick bay for treatment, on several occasions examinations as to the physical development of the cadets were made which might reveal any disease of this character, but no case was found.

One case of epilepsy developed while aboard; this boy was sent home.

Only two accidents of any import occurred—one a dislocation downwards of the humerus; the other a simple fracture of the radius: both cases mended rapidly.

Below I give a list of those cadets on the sick and ex-

cused list for five days or over and the cause of their disability :

Name.	Diagnosis.	Days Sick.	Days Excused.
Allen,	Diarrhœa,	5	—
Black,	Suppuration of hand,	—	7
Davis,	Dislocation at humerus,	—	30
Dressner,	Epilepsy,	20	—
Lewis,	Diarrhœa and colic,	6	12
Lund,	Bronchitis,	9	—
Magnet,	Suppuration middle ear,	—	15
Nagel,	Epididymitis,	5	—
Reeves,	Fracture of radius,	—	28
Tompkins,	Malarial fever,	8	7
Stay,	Pleurisy,	10	5
Robbins,	Pleurisy,	12	—
Johnson,	Gastritis acute,	6	—

The health of the cadets has been good ; this may be seen from the above account of the small amount of sickness aboard, but probably it may be more strikingly illustrated by a statement of the additional weight and strength gained by those cadets recently joined and who are enjoying the benefits of a regular sea routine for the first time. These boys, most of whom joined the ship about May 1, were at that time weighed, and a reweighing of them recently shows them to be 484.5 pounds heavier than at entrance. This gives an average gain of 10.5 to each cadet. There were only three cases of "weight lost" amongst these new boys, and of these two had at different times figured on the sick list.

The following are a few of those whose gain in weight for this short period has been rather exceptional :

Bloomer, 29 pounds,	Roberts, 23 pounds,
Sherman, 28 "	Cantus, 22 "
Rochester, 25 "	Williams, 22 "
Kobbé, 25 "	Daily, 22 "
Kellom, 21 pounds.	

Those cadets losing weight were fortunate in not doing so to the same extent; these three cadets lost but 8 pounds amongst them.

The gain in weight and proportionate strength is of course partly due to the fact that the cadets enter the school at an age when they begin to develop rapidly; but it is due to a still greater extent to the systematic daily routine which they have to line up to aboard ship.

The food has been exceptionally good this summer, being plain, but varied and nutritious. Fresh meats are served out on an average of four times a week, and fresh vegetables or the best canned stuffs are found at every meal.

The water has been good and abundant; on but one occasion was the water found to be tainted, and the tank was immediately disconnected and put out of use. But one case of typhoid fever has occurred since last December (that case occurring on board during the winter)—an exceptionally small percentage.

In closing I beg to call your attention to the faithful work of Mr. Meredith Strong, who came aboard last July, by the permission of the Board of Education, in the capacity of apothecary. He has been most zealous in his work and in his accuracy in dispensing drugs, and by his careful attention to nursing the sick he has not only been of great assistance to me but has endeared himself to all aboard. I have the honor to be, sir,

Very respectfully,

ROBERT SMART,

Assistant Surgeon, Naval Reserve, N. Y.

REPORT OF ASSOCIATE SUPERINTENDENT ELGAS.

NEW YORK, *September 27, 1898.*

Hon. JOHN JASPER,

*Superintendent of Schools,**Boroughs of Manhattan and The Bronx.*

DEAR SIR: In accordance with the request of the Committee on Nautical School of the Board of Education, and your instructions, I visited the Schoolship *St. Mary's* on Friday last, September 23.

With a view to its thorough inspection, as Associate Superintendent in charge of said ship I requested Superintendent Stewart to accompany me, he having been with me on a former occasion. The visit to the ship and the inspection of the same required the entire day.

The ship was anchored at Glen Cove, L. I. We were met at the New York Yacht Club float by one of the boats of the ship, commanded by the gunner's mate and the Captain's crew of six picked men, who lost no time in rowing us to the ship, where we were cordially received by Captain Patterson and his officers, and the cadets, drawn up in line.

After a brief address by the Associate Superintendent in charge, we examined the ship itself in all its parts, and found everything in the best possible condition. Although the day was gloomy, the decks were exceedingly clean, and everything showed that great care had been exercised in even the slightest detail. The condition of the ship was very much better than at any previous visit on our part.

You will remember that shortly after the declaration of war by our Government, last April, all the officers except the surgeon, Dr. Robert Smart, were detailed to other duty, and the Committee was confronted with the

problem of either closing the school or of finding temporary officers and instructors. At this juncture the services of Captain Howard Patterson, of the New York Nautical College, were secured, and two of our substitute teachers, Mr. James D. Laird and Mr. Isidor Ach, were appointed as instructors.

We found the school divided into four sections: the highest, a graduating class, containing seventeen (17) young men; the second section, eighteen (18); the third, twenty-four (24), and the fourth, thirteen (13), making a total of seventy-two cadets. They were examined in navigation, astronomy, trigonometry, geometry, the rules of commerce, arithmetic, geography, history and English.

The classes were very much better graded than at our last visit; the boys were more uniformly drilled in their work, and showed considerable intelligence along the lines of study in which they had been engaged. We also saw the boys in many drill exercises other than those of the classroom.

The discipline and spirit of the school are very much improved. We were exceedingly pleased with all that we saw. A complete revolution has been wrought in the organization and administration of the school by the efforts of Captain Patterson.

We would deeply regret his resignation from the position he holds, and we trust that every effort will be made to retain his services. It also seems to us that if an Executive Officer and one or two watch officers could be detailed for duty by the Navy Department, and in addition two regular teachers could be appointed by the Board, it would enable Captain Patterson to continue the good work so auspiciously begun, and thereby place the ship, as it should be, in the foremost rank as a training ship for the merchant service, to which the best and most intelligent young men would turn for instruction.

By offering a number of scholarships to the boys who graduate with honor from our schools, say for a term of six months, or one cruise, at the option of the recipient, the public would realize that the *St. Mary's* is not a reform ship, but a Nautical School in which the best instruction in seamanship is given, and admission to which would be considered a prize worthy of the highest endeavor.

Very respectfully,

MATTHEW J. ELGAS,

Associate Superintendent in Charge.
